The Recent Big Purchase by the Union Pacific.

THEIR IRON LANDS IN THE SOUTH.

Realty Notes

The purchase by the Union Pacific rail

way company of a large tract of land north of this city, coupled with the other fact that officials of that company are extensive holders of Salt Lake realty, is pretty strong evidence that they have in contemplation some very extensive improve ments in this city. It is not generally known that that company owns extensive iron lands which the extensions now under way tap and which will be accessible to this way tao and which will be accessible to this city. The large tonnage of railroad iron which will be required to lay the many thousand miles of projected lines soon to be constructed in this section-will make a great demand for steel rails and as there are mountains of the best iron ore in the world near by it is believed that the purchase of the Cooper farm is for a prospective site for an immense rolling mill soon to be put into operation by the Union Pacific rail-way company to furnish its own supplies way company to furalsh its own supplies as well as tributary lines. The fact that Con. Mushay was married has night at the Denver & Rio Grande are the strong supporters of the Pueblo rolling mills it is quite likely that the Union Pacific pro-poses to bereafter make its own rails at Salt Lake instead of hauling them from Chicago.

A TURF EXCHANGE.

Parks & Burgert to Open a Place in the Walher House Cafe.

The rapidly growing interest in turf sports and the large number of fast horses being brought to this city, makes a turf exchange a boon companion to the sporting featernity.

General and Freight Passenger Agent Eccles.

Mr. S. W. Eccles, the newly appointed general freight and passenger agent of the mountain division of the Union Pacific with headquarters in this city, arrived from the west yesterday morning, and at cace assumed the duties of his position. He was accompanied by his family. "I am more than pleased," he said, "to get back to Salt Lake, which I find has progressed greatly during the time I have been away." He is the same genial Eccles, and if one may judge from his personal appearance, the world has gone very well with him during his absence.
